CAREER OBJECTIVE:

I am seeking a Web Developer Internship position where I can apply my full-stack development skills in building scalable web applications. With experience in developing RESTful APIs using Node.js, FastAPI, and Spring Boot, and working collaboratively in team-based projects, I aim to contribute to impactful software solutions while continuously improving my technical expertise.

EDUCATION:

2023–2027: Mae Fah Luang University

Bachelor of Engineering in Software Engineering

GPAX – 4.0

WORK EXPERIENCE:

Web Developer Internship | July 2025 – September 2025

GAO Tek Inc.

- Developed and customized WordPress websites improving usability and performance.
- Improved website responsiveness and optimized performance.
- Collaborated with international teams in an agile work environment.

RELEVANT PROJECTS:

Mental Health App (Team Project of 3 People)

- Designed and integrated automated email notification services using backend APIs.
- Developed and deployed a logistic regression model for predictive mood analysis.
- Contributed to FastAPI backend development and PostgreSQL integration.

Eco Habits Tracker & Campaign Platform (Team Project of 4 people)

- Implemented secure user authentication and registration using Firebase Authentication.
- Developed a real-time habit tracking system using Firebase Realtime Database.
- Built campaign participation and progress tracking features using React Native with scalable NoSQL data modeling.

Personal Finance Tracker (Team Project of 5 people)

- Designed and implemented full-stack expense and income management features using React and Spring Boot.
- Built RESTful APIs and integrated relational database for transaction management.
- Developed interactive dashboards with weekly bar charts and monthly trend analysis.

SKILLS:

- Languages/Frameworks:** Java (Spring Boot), JavaScript (Node.js, Express, React), Python (FastAPI), TypeScript.
- Databases & Cloud:** PostgreSQL, Supabase.
- DevOps & Tools:** Git, GitHub, Docker, CI/CD.
